## Company evolution

*More than 50 years  
of expertise manufacturing woman shoes*

1967

### FOUNDATION

Luis Maestre Martínez founded a family owned group of companies dedicated to footwear manufacturing.

1996

### SECOND GENERATION

The second generation took over the management of the company.

1999

### NEW FOCUS

Susy Shoes started working for a variety of notoriously prestigious national and international brands.

2008

### STRATEGIC SHIFT

The group achieved a complete strategic shift by focusing on the manufacturing of luxury footwear. The production moved to modern facilities, incorporating state-of-the-art machinery to meet our clients' expectations.

2020

### LEADING MANUFACTURER

The company became a leading manufacturer of luxury footwear, working for the most prestigious international firms in the world.

*From a family business to a  
leading luxury shoes manufacturer*

## Facilities

Our spanish facilities are located in a 10,000 sq m property. The factory includes two industrial units of 4,200 sq m plus an additional unit including 400 sq m offices and a 400 sq m area for the reception of incoming goods. We also have an office in Florence focused on the customer to promote a better service and to be always close to you.

## Clients

The most prestigious designers of women's luxury brands have counted on Susy Shoes as their trusted partner for the most demanding and complex projects.

As we are fully aligned with our clients needs and priorities, we keep all details of our clients information confidential, including their brand, designs, materials.

Sneakers, espadrilles, sandals, boots, heels, kitten heels, moccasins, stilletos, pumps, ballets, mules, d'Orsays and more created in Spain for our clients

## ***Experience***

From high boots to espadrilles, sandals, moccasins, ballet flats, stilettos, sneakers, high heels, flat ankle boots or d'Orsays, our team has created the most complex and sophisticated women's shoes for high-end luxury firms.

*Quality Ratio  
above 99,9%*

## **Quality**

Highly qualified professionals in every section of the manufacturing process are in charge of carrying out quality controls over each and every stage of the production in order to obtain a final product of the highest possible quality.

## ***On-time delivery***

In addition to producing top quality shoes, Susy Shoes' target is to meet the delivery schedules required by clients. Therefore, production and logistics planning is undergone with full scientific rigorousness to accomplish our commitments.

*Happiness is only  
a pair of shoes away*

## Protect our people

Susy Shoes' corporate culture is firmly underpinned by respect for human and labor rights. We fully respect the fundamental human rights and dignity of the individual, according to the United Nations Guiding. In addition, we comply with all applicable laws and regulations relating to our manufacturing activities.

*Ask yourself if what you're doing today  
brings you closer to where you want  
to be tomorrow*

#### TRANSMISSION & SAVOIR-FAIRE

Susy Shoes and its people are the custodians of an unparalleled heritage of time-honored craftsmanship and precision skills. We take great care in protecting and developing savoir-faire among all stages of shoe manufacturing.

We strive to provide a working environment where our people can learn and progress. We place an emphasis on training and education for our talent to continue excelling in their positions.

#### INCLUSION & DIVERSITY

We aspire to build a better world for us all—free from bias and with an equal voice and representation for women and men. A world where everyone is equal.

#### WORKER DIGNITY & WORK LIFE INTEGRATION

We have a long-standing history of caring for workers in our supply chain and we strive to ensure that the people who make our products are treated fairly at work with the best-in-class health and safety procedures and systems.

We want Susy Shoes to be a place where our people love to work. Ensuring our employees have the resources and benefits available to achieve work-life balance is just one of the ways we protect their well-being.

## ***Protect our planet***

In regard to our planet, Susy Shoes integrates sustainable development criteria in all its processes, ensuring an efficient management of human resources and an appropriate protection of the environment and the eco-systems. We are pleased to share our alignment with the UN Sustainable Development Goals (SDGs), further demonstrating our dedication to driving meaningful positive change—not just for our Company, but for the greater global community.

*Our society will be defined not only by what it creates,  
but by what it refuses to destroy*

**REDUCE EMISSIONS & SUSTAINABLE ENERGY**

As a key manufacturer in the luxury shoes industry, we have a responsibility to reduce our carbon footprint to help combat one of our generation's greatest challenges—climate change. Our 2025 strategy goals include developing the consumption of green energy from renewable sources such as solar energy.

**PAPERBOARD AND CHEMICAL PRODUCTS RECYCLING**

The shoe manufacturing industry is a large user of chemical products and paper-based materials across the entire value chain. Our facilities also have their own recycling and waste usage chain, recycling leftovers from the production process. Susy Shoes proudly recycles over four tons of paperboard per year.

**TRACEABILITY & MATERIALS**

Quality materials are at the heart of what we create. Knowing the origins of those materials is therefore paramount to our business. Among our 2025 goals is to procure 90% of our leather from Leather Working Group (LWG) Silver- and Gold-rated tanneries and to achieve 95% mapping of our raw materials supply chains in order to maximise transparency.
